Prichard reports Sanitary Sewer Overflow

MOBILE, Alabama — Prichard Water Works & Sewer is responding to a Sanitary Sewer Overflow (SSO) at the intersection of Chin Street and Butt Street. The overall began at 12:30 p.m. and is ongoing. Crews placed signage in the area to inform the residents.

Prichard officials said this SSO resulted from the outfall line of the C.A. Morris Wastewater Treatment Plant. There was not any raw sewage lost. This entire volume is non-potable water, and it is flowing into the storm drain system that empties into Three Mile Creek.

Dr. Bernard H. Eichold II, Health Officer for Mobile County, advises area residents to take precautions when coming into contact with any standing water that may have accumulated as a result of this overflow. Those who have come into direct contact with untreated sewage are advised to wash their hands and clothing thoroughly.
