MAWSS reports Sanitary Sewer Overflow

MOBILE, Alabama — Mobile Area Water & Sewer System (MAWSS) responded to a Sanitary Sewer Overflow on Friday, March 10, near 1779 Princeton Woods Drive West. Approximately 300 gallons of wastewater overflowed as a result of sand and debris in the main line. The overflow reached Clear Creek. MAWSS crews have cleared the blockage and are taking steps to prevent further overflows at this location.

Dr. Bernard H. Eichold II, Health Officer for the Mobile County Health Department, advises area residents to take precautions when coming into contact with any standing water that may have accumulated as a result of this overflow. Those who have come into direct contact with untreated sewage are advised to wash their hands and clothing thoroughly.

Area residents should take precautions when using Clear Creek for recreational purposes because of the overflow. All seafood harvested in this general area should be thoroughly cooked before eating. People should wash hands after cleaning seafood and before preparing food.
