## **MCHD and Family Health sites closing early**

MOBILE, Alabama — Given the potential for severe weather entering our area later today and through tonight, Mobile County Health Department and Family Health — its primary care division — have deemed it necessary to close their facilities at 3 p.m.

Please know our priority is ensuring the safety of our employees as well as those we serve. All sites should resume normal operations Thursday, September 17.

Citizens are encouraged to monitor the MCHD and Family Health social media outlets along with other local media for updates.
