

2023 Provisional Cases of Select Reportable Diseases — Mobile County, Alabama, Week Ending September 23, 2023

|  |  | Weekly Number | Cumulative Number 2023 |
|--|--|---------------|------------------------|
| Sexually Transmitted Diseases                | Chlamydia trachomatis infection                    | 80            | 2,482                  |
|  | Gonorrhea  | 23            | 898                    |
|  | HIV  |               | 71                     |
|  | Syphilis, congenital                               |               | 4                      |
|  | Syphilis, early non-primary, non-secondary         | 1             | 45                     |
|  | Syphilis, late latent                              |               |                        |
|  | Syphilis, primary                                  | 1             | 57                     |
|  | Syphilis, secondary                                | 2             | 80                     |
|  | Syphilis, Unknown                                  |               | 8                      |
|  | Syphilis, unknown duration or late                 |               | 118                    |
|  | Trichomoniasis                                     | 6             | 38                     |
| Viral Hepatitis                              | Hepatitis A  |               |                        |
|  | Hepatitis B virus infection, Chronic               |               |                        |
|  | Hepatitis B, acute                                 | 1             | 4                      |
|  | Hepatitis C Virus Infection, chronic or resolved   | 13            | 507                    |
|  | Hepatitis C, acute                                 |               | 4                      |
| Enteric Diseases                             | Campylobacteriosis                                 | 2             | 42                     |
|  | Cryptosporidiosis                                  |               | 15                     |
|  | Cyclosporiasis                                     |               | 2                      |
|  | Ehrlichiosis, chaffeensis                          |               |                        |
|  | Giardiasis   | 2             | 24                     |
|  | Salmonellosis, excluding S. typhi and S. paratyphi | 1             | 71                     |
|  | Shiga toxin-producing Escherichia coli (STEC)      |               | 9                      |
|  | Shigellosis  |               | 13                     |
| Other Diseases of Public Health Significance | Coccidioidomycosis                                 |               |                        |
|  | COVID-19   | 189           | 7,396                  |
|  | Dengue   |               |                        |
|  | Influenza-associated deaths, non-pediatric         |               | 2                      |
|  | Legionellosis                                      |               | 3                      |
|  | Listeriosis  |               | 1                      |
|  | Lyme disease                                       |               | 3                      |
|  | Malaria  |               | 1                      |
|  | Mpox   |               | 1                      |
|  | Neisseria meningitidis, invasive (Mening. disease) |               |                        |
|  | Spotted Fever Rickettsiosis                        |               | 2                      |
|  | Streptococcus pneumoniae, invasive disease (IPD)   |               | 21                     |
|  | Tuberculosis                                       |               |                        |
|  | Tularemia  |               |                        |
|  | Vibriosis (non-cholera Vibrio species infections)  |               | 7                      |
|  | West Nile virus disease, non-neuroinvasive         |               |                        |
| West Nile virus neuroinvasive disease        |  | 3             |                        |
| Zika virus disease, non-congenital           |  |               |                        |
| Vaccine Preventable Diseases                 | Haemophilus influenzae, invasive                   |               | 4                      |
|  | Mumps  |               |                        |
|  | Pertussis  |               | 2                      |
|  | Varicella (Chickenpox)                             |               | 2                      |
